WILL IT CURE ME?

That's the personal question a woman asks herself when she reads of the cures of womanly diseases by the use of Dr. Pierce's Favorite Prescription.

Why shouldn't it cure her?

Is it a complicated case? Thousands of such cases have been cured by "Favorite Prescription." Is it a condition which local doctors have declared incurable? Among the hundreds of thousands of sick women cured by the use of Dr. Pierce's Favorite Prescription there are a great many who were pronounced incurable by local doctors. Wonders have been worked by "Favorite Prescription" in the cure of irregularity, weakening drains, inflammation, ulceration and female weakness. It always helps. It almost always cures.

"I commenced taking your medicine, 'Favorite Prescription,' nearly a year ago for chronic inflammation of womb, and can truly say it is the only thing that ever did me any good," writes Mrs. L. C. Wagner, of 125 Edwin Street, Toronto, Ontario, Canada. "I could not walk any distance before using it. After taking six bottles of your 'Favorite Prescription' I find I can walk without difficulty and am greatly benefited in general health. Would advise all suffering women to use Dr. Pierce's medicine."

Pierce's Common Sense Pellets — These are the **Original Little Liver Pills**, first put up over **40 years ago**, by old Dr. R. V. Pierce. They've been much **imitated** but **never equaled**. Smallest, easiest to take and best. They're tiny, sugar-coated, anti-bilious granules, a compound of refined and *concentrated* vegetable extracts. Without disturbance or trouble, constipation, indigestion, bilious attacks, sick and bilious headache, and all derangements of the liver, stomach, and bowels are prevented, relieved, and cured. *Permanently* cured, too. By their mild and natural action, these little Pellets gently lead the system into natural ways again. Their influence *lasts*.

A WOMAN TO BE PRETTY

Must Have Luxuriant and Glossy Hair, No Matter What Color.

The finest contour of a female face, the sweetest smile of a female mouth, loses something if the head is crowned with scant hair. Scant and falling hair, it is now known, is caused by a parasite that burrows into the scalp to the root of the hair, where it saps the vitality. The little white scales the germ throws up in burrowing are called dandruff. To cure dandruff permanently, then, and to stop falling hair, that germ must be killed. Newbro's Herpicide, an entirely new result of the chemical laboratory, destroys the dandruff germ, and, of course, stops the falling hair, and prevents baldness. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

STRONG Again

is what Mrs. Lucy Stovall, of Tilton, Ga., said after taking Kodol Dyspepsia Cure. Hundreds of other weak women are being restored to perfect health by this remedy. YOU may be well if you will take it.

Indigestion causes nearly all the sickness that women have. It deprives the system of nourishment and the delicate organs peculiar to women suffer — weaken, and become diseased.

Kodol Dyspepsia Cure

enables the stomach and digestive organs to digest and assimilate all of the wholesome food that may be eaten. It nourishes the body, and rebuilds the weak organs, restoring health and strength. Kodol cures indigestion, constipation, dyspepsia, sour risings, belching, heartburn and all stomach disorders.

CHANGES IN PRAYER BOOK.

Presbyterians of Chicago yesterday expressed their astonishment at the radical changes in the prayer book, editions of the revised book having appeared in that city.

"The Book of Common Worship" was compiled by a committee of ministers and elders and it is to be offered to such congregations as desire a liturgical form of worship. It is a very close copy of the Anglican Episcopal service. One of the startling features of the "Treasury of Prayer," a part of the new book, are prayers for Advent, Good Friday and Easter. Complete forms are given for morning and evening service, for the celebration of Holy Communion, for the administration of baptism, burial for the dead and for the solemnization of marriage. All these are new. Quite as radical is a change in the marriage service, which strikes out the word "obey" and substitutes therefor "covenant." Neither man nor woman is required to pledge obedience to the other.

Old Presbyterians who have had a glimpse of the book are shaking their heads over the "Confession of Sins," which takes exactly the same place in the service that the "General Confession" does in the Anglican liturgy. Immediately following the confession by the people comes the "assurance of pardon," to be said by the pastor, the people still bowing down. This assurance differs in effect from that of one form of absolution used in the Episcopal Church chiefly in that it employs the pronouns "us" and "our," instead of "you" and "yours," thus releiving it from the suggestion of being a direct pronouncing of absolution for the people by the priest. The Gloria Patri has been introduced in the service; provision is made for reading of a lesson from the Old Testament and one from the New Testament. A hymn follows the lesson from the New Testament, and then comes the Apostles' Creed, decidedly an innovation in Presbyterian churches. In many other places the new book follows closely the lines of the Anglican forms and ceremonies.

Killed by His Rival.

As has been stated, Maurice Francis, a young resident of Roanoke, Va., left that city Saturday in a buggy to visit his fiancee, Miss Link, in Floyd county, and was shot and killed. Francis had reached a spot one mile from the home of his betrothed when he was fired upon from ambush. John Richards, a public school teacher and rival suitor for Miss Link's hand, did the shooting, according to Miss Link. He was seen in the vicinity of the tragedy just before the shooting, and was then armed with a shotgun. He has been missing ever since. The horse Francis was driving became frightened and ran away, breaking loose from the buggy. Parties who stopped the horse took the animal back and discovered the Roanoker's mutilated body in the buggy. Several bullets were imbedded in Francis's watch and a dozen shot took effect in the horse's side. Richards made his escape, and is being hunted by posses. If he is captured a lynching may follow, as intense excitement prevails. Richards is the son of Prof. James R. Richards, one of the best-known educators in Southwest Virginia. Miss Link had an engagement with young Richards for Sunday and broke it to entertain Francis.

Woman Thrown from Buggy.

Hurled from a buggy that was madly descending a steep hill, and thrown among a mass of rocks and bushes, was the frightful experience of Mrs. Kittinger, wife of Dr. Leouard Kittenger, of Wilmington, Del., who is spending the summer in Winchester. Mrs. Kittenger, with a friend, had driven a livery carriage to Berryville, Clarke county, last evening, and was returning alone, when, at the top of a steep hill on the east side of Opequan creek, the horse started down the grade at a fast pace and threw Mrs. Kittenger out. She sustained a severe fracture of her left arm and her body was badly cut and bruised. Her clothing was torn, her shoes came off, and she lost her hat, umbrella, pocketbook, and several costly rings, all of which, except the latter, were found. When the horse reached the stream it stopped and the buggy was upset. Several vehicles passed, and Mrs. Kittenger, suffering great pain, cried for help, but, it is said, the occupants paid no attention to her appeals. James Robinson, a young colored man, of Winchester, placed her in a buggy and drove rapidly to Winchester, where she was placed under a doctor's care.

CHOLERA INFANTUM.

Child Not Expected to Live from One Hour to Another, but Cured by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Ruth, the little daughter of E. N. Dewey, of Agnewville, Va., was seriously ill of cholera infantum last summer. "We gave her up and did not expect her to live from one hour to another," he says. I happened to think of Chamberlain's Colic, Cholera and Diarrhoea Remedy and got a bottle of it from the store. In five minutes I saw a change for the better. We kept on giving it and before she had taken the half of one small bottle she was well." This remedy it for sale by Gibson and Timberman and W. F. Creighton & Co.

IN STRICT CONFIDENCE.

Women Obtain Mrs. Pinkham's Advice and Help.

She Has Guided Thousands to Health.—How Lydia E. Pinkham's Vegetable Compound Cured Mrs. Fred Seydel.

It is a great satisfaction for a woman to feel that she can write to another telling her the most private and confidential details about her illness, and know that her letter will be seen by a woman only, a woman full of sympathy for her sick sisters, and above all, a woman who has had more experience in treating female ills than any living person.

Over one hundred thousand cases of female diseases come before Mrs. Pinkham every year, some personally, others by mail, and this has been going on for twenty years, day after day.

Surely women are wise in seeking advice from a woman of such experience, especially when it is absolutely free.

Mrs. Pinkham never violates the confidence of women, and every testimonial letter published is done so with the written consent or request of the writer, in order that other sick women may be benefited as they have been.

Mrs. Fred Seydel, of 412 North 54th Street, West Philadelphia, Pa., writes:

Dear Mrs. Pinkham:—

"Over a year ago I wrote you a letter asking advice, as I had female ills and could not carry a child to maturity. I received your kind letter of instructions and followed your advice. I am not only a well woman in consequence, but have a beautiful baby girl. I wish every suffering woman in the land would write you for advice, as you have done so much for me."

Just as surely as Mrs. Seydel was cured, will Lydia E. Pinkham's Vegetable Compound cure every woman suffering from any form of female ills.

No other medicine in all the world has such a record of cures of female troubles as has Lydia E. Pinkham's Vegetable Compound. Therefore no prudent woman will accept any substitute which a druggist may offer.

If you are sick, write Mrs. Pinkham, Lynn, Mass., for special advice. It is free and always helpful.

Sickening Shivering Fits

of Ague and Malaria, can be relieved and cured with Electric Bitters. This is a pure, tonic medicine; of especial benefit in malaria, for it exerts a true curative influence on the disease, driving it entirely out of the system. It is much to be preferred to Quinine, having none of this drug's bad after-effects. E. S. Munday, of Henrietta, Tex., writes. "My brother was very low with malarial fever and jaundice, till he took Electric Bitters, which saved his life. At E. S. Leadbeater & Sons drug store; price 50c. guaranteed.

SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

TUESDAY EVENING, AUG. 1, 1905.

THE RECENT encyclical of Pius X concerning the attitude of the Roman Church toward Italian politics is sufficiently significant to command attention and to foreshadow developments of great importance. It does not command Catholics to take part in Italian politics nor even give them permission to do so. On the contrary, it reaffirms the general rule adopted and maintained by the two preceding Popes, forbidding Catholics to participate in the legislative power of Italy. But Pius X recognizes and frankly says that, for reasons of the utmost gravity, derived from the supreme welfare of society, it may be necessary to make exceptions to this rule, and then he adds the gist of the whole matter, a direct exhortation, indeed a command, to all Catholics "to prepare themselves prudently and seriously for political life should they be called to it." There is no secret made of the cause of this action by the Pope. It is the menace of socialism. The Pope is apparently convinced that there is impending a decisive struggle between conservatism and radicalism, between the existing social order and universal revolution. "The supreme good of society," he says, "ought to be saved at any cost." In such a conflict he means that the church, with all its organization and influence, shall be on the side of social order, even though it shall thus ally itself with the government which it traditionally regards as a usurper and an oppressor.

NEW charges were made yesterday in connection with the department and bureau scandals in Washington, which grew out of the cotton scandal in the Bureau of Statistics of the Department of Agriculture. Two other departments, the Interior and Commerce and Labor, were affected. It has been asserted that officers of the Geological Survey, the Bureau of Fisheries and the Bureau of Forestry withheld official reports that they might sell stories to magazines and newspapers. Three officials of the survey, including E. W. Parker, one of the coal strike arbiters, are said to be stockholders in Mining World, a Chicago publication. Secretary Wilson, of the Department of Agriculture, said, in an interview at Oyster Bay, that four scientists of reputation would be employed to stop grafting in the statistics bureau. The Keep commission will recommend the retirement of Public Printer Palmer, because of his inability to cope with graft in the printing bureau. This is truly the era of graft and the evil is spreading to an alarming extent.

THE BASQUES, who inhabit a triangular district, the base of which is the Bay of Biscay, are endeavoring to prove to the world that it was an orange (not an apple) which caused trouble in the garden of Eden. The Book of Genesis does not say that the forbidden tree was an apple tree although the great mass of humanity suppose it was. The ancient Greeks believed it was a fig tree, and brought in the fig leaf aprons and Christ cursing a tree of that genus as bearing upon the forbidden fruit. Those who consider the account in Genesis an allegory give themselves no concern about whether the forbidden fruit was an apple or a gourd, but realize the fact that trouble entered the world in some way and that it is still in evidence. Whether it was caused by an orange, an apple or a fig makes but little difference now.

THE first month of the new fiscal year ended yesterday and the books of the Treasury show that the Government during that time has spent more than it took in by $13,857,866. This is a pretty good deficit with which to begin the year. The outlook is not encouraging to those officials who hope to avoid a deficit of any sort during the coming year. With expenditures for the month a round million less than a year ago and receipts almost two and a half millions greater, the deficit of almost $14,000,006 has an ugly look and suggests that there is something wrong in the treasury system.

THE MERCURY in this city during the past several days has hovered around the summer heat mark—76° while refreshing breezes have been blowing almost continually. It matters not where Alexandria people have gone to spend the summer, certain it is that a more delightful temperature could not have been found than that which has prevailed at home during the past two weeks.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, D. C., August 1.

With the return of Secretary Wilson today from his conference at Oyster Bay it is expected additional vim will be put into the general investigation he has been making of the Agricultur e Department. It is hinted the bureau of animal industry will soon be scrutinized to ascertain the truth of the published statement that a scientist employed therein has grown wealthy through stock he holds in a company which manufactures a peculiar kind of meat label used by the department. Some says the Weather Bureau, under Willis L. Moore, should also be overhauled. The erection of an elaborate observation station in the Blue Ridge Mountains, near Bluemont, Va., has been criticised, the charge being made that the place is used largely as a summer vacation resort by employees of the bureau. To this Prof. Moore responds that every cent expended there has been appropriated by Congress for that purpose after plans for the station had been made public. He says every employee there must bear his own living expenses. The government scandal crop is not confined altogether to the Agriculture Department, however. The practice of scientists in the Geological Survey and Bureau of Fisheries utilizing material gathered by them in the prosecution of government work for publication in magazines in advance of publication in their official reports, will probably be investigated by the Keep commission, which has recently completed its inquiry into the government printing office controversary. Some of the magazines which have not been favored by the scientists in question have made complaint. With the grand jury of the District of Columbia probing the case of Edwin S. Holmes, jr., former associate statistician of the Agricultural Department, people wonder how Secretary Wilson could have been deceived so easily and completely by his wily subordinate. According to evidence unearthed by District Attorney Beach, Holmes won Secretary Wilson's confidence by one master stroke. About the time an important cotton acreage and condition report was due, Holmes came to the secretary's office. He appeared to be very indignant. He said that a southern Congressman had approached him with an offer of a large sum of money if he would give him advance information in regard to the forthcoming report. Holmes stated that he had spurned the proposition but felt it his duty to lay the facts before the secretary. Secretary Wilson was thereupon convinced that Holmes was an honest man. He so declared to Richard Cheatham, secretary of the Southern Cotton Growers' Association, when he laid the charges against Holmes, and related the incident as sufficient ground for his belief in Holmes's probity. In addition to the alleged magazine graft by members of the scientific corps of the Geological Survey, who have been writihg stories for periodicals with information gained on government expeditions, allegations are now being made that government geologists have boomed private mining enterprizes, in some cases to the serious embarassment of investors. The Keep committee has been informed of the magazine graft and an investigation will be made. The participation of employees of the government in private enterprizes will also be looked into by the committee.

An official dispatch from Tokyo to the Japanese Legation here announces that Lieutenant General Haraguchi proclaimed military administration over all of Sakhalin Island on July 30th.

It is said to be probable that when Mr. Morgan H. Beach retires from the position of attorney for the District of Columbia on August 31, he will be retained by the government as special attorney in the cotton leak cases. Some weeks ago Mr. Beach handed in his resignation to take effect on August 31, when he will be succeeded by D. W. Baker.

Col. Clarence E. Edwards has cabled to the War Department, from Nagasaki, that all the members of the party with Secretary of War Taft are well and that they expect to reach Manila on Saturday.

Two additional cases of yellow fever are reported today from Panama.

It is believed that District Atttorney Beach has practically given up hope of maintaining a successful prosecution of former Associate Statistician Holmes, of the Agricultural Department. This afternoon he indefinitely paroled Moses Hass and F. A. Peckham, of New York, who were alleged to have conspired with Holmes in the publication of advance information of government crop reports. The two men were before the grand jury this morning, but stood on their constitutional rights to refuse to answer any question that would tend to incriminate them. As the only evidence against Holmes secured by the Department of Agriculture before the grand jury began its session was from these men, their refusal now to testify is a serious handicap to the government's case, and may cause the District Attorney to drop it. Unless evidence of a conclusive character can be obtained from other sources, this will likely be done.

Moses Haas and F. A. Peckham, of New York, were before the grand jury investigating the cotton scandal this morning. While no news was received of the trend of the examination, it is understood that Haas answered the questions as to his former residence in Washington and alleged connection with the Department of Agriculture which Justice Wright last Saturday decided were proper. Mrs. Bertha Burch, formerly confidential clerk to ex-Chief Statisticia John Hyde, was called as a witness this morning but failed to appear at the court house. After sitting two hours the grand jury was excused until Thursday. Haas and Peckham were parolled in the custody of their counsel, Mark Alter. It is believed they will be held before the court for refusing to answer questions.

U. S. Consul Harris, at Nagasaki, Japan, has cabled to the State Department information to the effect that the Chinese merchants there have decided to co-operate with those of Shanghai and other citizens in boycotting American goods.

The fame of District Attorney Morgan H. Beach as an investigator of government scandals has extended to St. Louis county, Mo., as is evidenced by a letter from a citizen of Maplewood in that county asking Mr. Beach to investigate the electoral vote cast last winter for President. Mr. Beach will send his correspondent a copy of the Congressional Record of February 8th last telling all about it.

"Corporal" Tanner former Commission of Pensions and now Register of Wills for the District of Columbia, is confident that he will be elected Commander-in-chief of the G. A. Other candidates are Burrows, of New Jersey, Browu of Ohio, and former Representative Burton, of Maine.

Todays Treasury statement was: Receipts, $1,119,660; expenditures $2,130,000.

Relief for Navy Yard Workmen.

The thousands of employes of the Washington navy yard are much pleased with the tenor of a communication recently written by Charles J. Bonaparte, Secretary of the Navy, to Senator Thos. S. Martin, of Virginia. In this communication Secretary Bonaparte expresses his approval of the efforts that are being made to secure some provision for the relief of those workmen who are injured while at work in the navy yards.

It is said that Mr. Louis Mangialetto, of Portsmouth has interested himself in the matter, and after considerable correspondence with Senator Thomas S. Martin, Mr. Mangialetto has received the following assurance from the senator of his intention to carry the matter to a successful conclusion, and, together with departmental assurance that a section of the next report of the Navy Department will bear upon the subject:

"My almost continual absence from my headquarters has prevented an earlier reply to your letter of the 15th instant in regard to the matter of provision for workmen injured in the discharge of duty in the government navy yards. "I have received a letter from Mr. Bonaparte, the new Secretary of the Navy, in regard to this matter, which I inclose for your information. I will take this matter up next winter and see if something cannot be done to change the present very unsatisfactory conditions in regard to this class of workmen. Thanking you for your kind expressions of interest in my political welfare and for whatever assistance you may be able to render me, I am," etc.

The matter of providing assistance for mechanics who are injured while performing their duties at the navy yards has been agitated for some time. At present the workmen who are injured in the navy yard are provided with medical attention gratuitously during the time immediately following their injury and before their removal from the limits of the navy yard to their home or a hospital. The efforts toward securing provision for workmen injured in this way have been directed toward securing, if possible, medical attention by the government after they are removed from the navy yards and hospital treatment if necessary.

Nearly Killed by Vicious Horse.

Because he laughed at the warnings of his friends, who told him that his stallion would one day kill him, Lewis Ringer, of South Allentown, Pa., is now lying critically ill in a hospital from blood poisoning, due to injuries received in a terrible fight with the animal several days ago. Ringer always maintained that his control over the brute was complete. One day last week, however, when he entered the stable the stallion seized him by the arm and sunk his teeth to the bone. Ringer made a desperate fight, and the stallion dropped the arm, only to grasp it at another place, and again the teeth penetrated to the bone. At one time the enraged brute grabbed him by the back of the coat and shook him as a dog would a rat. The man would have been killed outright but for the arrival of help. Ringer was treated at home until Saturday, when his condition became such that he was taken to the hospital.

Woman Stabs Woman.

While two women detectives were attempting to arrest two women shoplifters in a department store in Boston yesterday, one of the suspects stabbed Miss Edith Thompson, one of the detectives, with a butcher knife. The woman also accidentally wounded herself with the same weapon. The alleged shoplifters did not escape, but, with the assistance of an inspector, who was hastily called, were taken to police headquarters. The one alleged to have stabbed Miss Thompson gave the name of Mrs. Bertha Hurley. Her companion said that she was Miss Alice McDonald. The police say that goods valued at $100 were found in the possession of the women.

Let them have their 'Lily White' convention."

THE RICHMOND PRIMARY.

A special grand jury in Richmond yesterday began the investigation of alleged fraud in the recent primary election there. The voters from two precincts were on hand and many were interrogated. Judge S. B. Witt, of the Hustings Court, who convened the jury, delivered a strong charge, urging a thorough investigation. Under the law no citizen can be compelled by any power to disclose for whom he cast his vote, but in the present investigation very few refuse to tell the grand jury frankly whom they voted for. Judge Witte said that not only the guilty must be brought to justice, but that those elected officers who were honest and did their whole duty should be exonerated before their fellow citizens.

The grand jury went at once into the work on hand. The searchlight was first turned on the Second precinct of Lee ward. The work was expedited by the summoning of witnesses in advance, and out of 416 voters summoned, less than a dozen failed to respond. They stood in line like a Sunday crowd at the general delivery window and responded as their names was called. Two minutes only was consumed on an average in examining each witness and the work was carried on more expeditiously than at first, the members having learned by last week's experience the shortest way to the information desired. Men went up and down the line, mostly the officers of the precinct under fire, advising the voters to tell all they knew and do everything they could to help along the investigation. The Second Lee and First Jefferson were examined by the grand jury yesterday, after which the body adjourned until 10 o'clock tomorrow.

Rev. George H. Spooner, pastor of Broad Street Methodist Church, has created a sensation by a pulpit attack on Mr. Alfred B. Williams, editor of the News-Leader, who is under indictment for paying $25 to Samuel Goldstein, who carried the First precinct, Jefferson ward, for Mr. Williams' friend, Col. George Wayne Anderson, who was a candidate for the office of Commonwealth's Attorney. Mr. Williams has editorially been fighting for years for purity in elections. On this line Rev. Mr. Spooner said:

"The community has been startled by the disclosure of the fact that a leading citizen and advocate of pure elections had not only violated the law in the use of money at the polls, but unblushingly confessed himself guilty of the charges and defended his position by claiming that he had a right to do it, as he construed the law. If you would instruct in good citizenship, first reverence the law yourself."

Cut His Throat.

Philadelphia, Aug. 1.—After cutting his throat in the bathroom of his home, James Collins walked out of the house and into the street at dawn this morning. He set his back against a lamp post and calmly awaited death. A policeman found Collins several minutes later. The patrol was called and made a record run to the Woman's Homeopathic Hospital with the injured man. The physicians found that Collins had come within an eighth of an inch of severing his jugular vein, but the surgeons had no difficulty in closing the wound. He will probably recover.

Today's Telegraphic News

President and Attorney General.

Oyster Bay, N. Y.. Aug. 1.—Attorney General Wm. H. Moody is in consultation with President Roosevelt today and may remain over night at Sagamore Hill. Mr. Moody came down from New York on board the Dolphin, reaching Oyster Bay last night. The Dolphin anchored last evening in the sound off the entrance to the bay, and the Attorney General was ferried to the village by the ship's launch at eight o'clock this morning. After stopping at the executive office to see acting Secretary Barnes, the Attorney General was driven out to the President's home. "Neither the cotton investigation nor the nitro-culture affair in the Department of Agriculture is in such shape that I can say anything for publication," said Mr. Moody. "When I leave the President I may be able to say something on another matter." During the course of a conversation upon general subjects the Attorney General made these significant remarks: "The public I think is too ready to declare that certain transactions are illegal. Because a thing happens to go wrong it does not necessarily follow that any law has been broken. Our statutes unfortunately do not cover all classes of wrongs: the federal laws are especially weak in this respect." President Roosevelt and Attorney General Moody are undoubtedly discussing the same matters that called the attention of the chief executive and Secretary Wilson yesterday; namely, the scandals in the Agriculture Department. Secretary Wilson has referred all the papers in the Hyde and Holmes and Moore cases to the Department of Justice, for such action as may be deemed expedient. The Attorney General remarked that the failure of the statutes to cover all classes of wrong doing applies, in all probability to the Moore case, and it may even be an indication of the department's inability to punish Hyde and and Holmes for their "business deals."

Midshipman Missing.

New York, Aug. 1.—The police have been asked to search for Robert Allen Jackson, midshipman on the battleship Missouri, who is strangely missing. Jackson has been missing since last Saturday. Officers on the Missouri think that Jackson has gone away with a young woman, believed to be Miss Olga Maxwell, in whom the young officer is said to be interested. When the Missouri was off Boston recently Miss Maxwell went from her home in this city to see Jackson. Jackson is said to have received a special delivery letter from the woman on July 29, and immediately he left the ship, taking "French leave". Jackson, who is just past twenty-one, is popular with his brother officers. They have searched the morgue and hospitals thinking that harm has possibly befallen him. When he is found he will be tried by court martial. Jackson comes from Richmond, Va.

The Yellow Fever.

New Orleans, La., August 1.—Though there was a decrease in the number of deaths and new cases during the past 24 hours from yellow fever, the terrific heat of last night may run the list up again today. C., August 1.—According to reports made to the United States Marine Hospital Service, the largest prevalence of yellow fever during the present season is at San Pedro, about twenty miles from Puerto Cortez, Honduras. Hyde Seeking a Bride.

Newport, R. I., August 1.—That James Hazen Hyde, of Equitable fame, is seeking a bride in Newport, and that she is none other than Miss Gladys Deacon, whom he met and lavishly entertained in Paris after her reported engagement to the Crown Prince of Germany was said to have been broken, the cynics of even the most exclusive set are forced to conclude, through the closest relatives of the young couple positively refuse to seriously discuss the matter.

Helper of the Poor.

The following is taken from Knighthood, an Alexandria publication, edited by Mr. William F. Carne. It will be read with interest by all who knew the late Doctor Murphy:

The most notable object that rears itself among the graves in our old church yard is the Murphy mausoleum. There repose Dr. Francis J. Murphy, his father, mother and sister, and his beloved. Dr. Murphy well deserves the epitaph which the City Council has inscribed on the public monument of Charles Bennett in Christ Church yard:

"A PUBLIC BENEFACTOR."

He gave all that he possessed to the poor of Alexandria under a trust confided to the Society of St. Vincent de Paul. His last will recorded at the court house reads as follows:

"I give, devise and bequeath my estate as follows: All my property at the intersection of Duke and Fairfax streets in said city, viz., the house and lot on which I have heretofore resided with all the appurtenances thereto; and also the house and lot on the south side of Duke street, and adjoins the above with all the appurtenances thereto * * * to the conference of St. Mary of the Society of St. Vincent de Paul (of Paul) to be used by said society for the purpose set forth in the act of the General Assembly of the State of Virginia to incorporate said conference. * * * * I nominate and appoint Richard L Carne and William F. Carne the executors of this will, directing that no security shall be required of them."

Dr. Murphy was one of the leading citizens and most prominent physicians of Alexandria for the third of a century. He was an example of good citizenship.

He wrote for the leading magazines genial and pure thoughts in English undefiled. His verse is to be found in Blackwood's; in the Knickerbocker, when its pages flashed with the poetry of Willis, Morris and Fay, and for the Southern Literary Messenger when Poe was its editor. Some of these poems he gathered for the memorial volume which he left to his friends.

The most personal of his poems embodies the romance of his life:

Come back my pale-faced darling,
O, come once more to me;
Will we meet no more forever
This side the silent sea?
* * * * *
Lo, I hear thy spirit whisper,
"We will meet by that mystic shore,
In the groves of the far hereafter
In the land of the evermore."

Dr. Murphy was for many years the suitor of a delicate beauty, a convert to the Catholic Church, the aunt of Mrs. Ryan, whose benefactions have made the church in Virginia rejoice. She died of consumption and her remains lie in the same tomb with Dr. Murphy; for his mausoleum not only contains his family, but also two other graves, in one of which rests all that was mortal of his beloved.

Fond of good company and pleasant amusement, Dr. Murphy in 1843 joined Alexandria-Washington Lodge of Masons. The supper which he gave at his initiation is noted as the most superb ever served in a body well capable of taking care of the good things of life. Dr. Murphy never advanced in Masonry, and long before his death ceased to be connected with Masonic fraternity. Dr. Murphy was also initiated into Mt. Vernon Division of the Sons of Temperance in 1850, but did not long remain a member.

The latter portion of his life was one of great pain. After having received attention at several hospitals, he located himself at the mansion of Mrs. Wood, at Washington and Franklin streets, where he died. He had prepared before death a home for his body beside his family and his "pale-faced darling," and a home for his soul by giving all he had to the poor, and so he traveled to another land fortified for his journey by all the helps of the Catholic faith.

Killed by Lightning.

Heavy electric storms continue to pass over the Warsaw, Va., section, in many instances doing great damage. About 3 o'clock Saturday morning lightning struck the dwelling of Mr. C. C. Leckham, near Lillian. The family became much alarmed, dressed themselves, and took refuge in the dining-room. Lightning then struck the chimney, the bolt coming through the stovepipe hole, tearing the hat off the head of Mr. Perry Leckham, aged about twenty-one years, and killing him instantly.

The house of Charles Hewitt a contractor, residing at Mapleside, a suburb of South Cumberland, was struck by lightning a day or two ago and Mrs. William Owens and Mrs. John Ray, of McKeesport, Pa., guests, were badly stunned. The ladies were taking a nap on an iron bed, the head of which rested against the chimney, which the lightning followed. The chimney was ripped from top to bottom, and the house damaged to the extent of several hundred dollars.

Want to Purchase Schooner.

Several Alexandrians are engaged in a movement toward forming a company for the purchase of a four-masted schooner to be used in transporting railroad ties to northern ports, as well as bringing plaster from Nova Scotia here and for such other purposes as may be required by merchants of this city. The last coasting vessel built by Alexandria capital was the Robert Portner, which was constructed in 1876. Many years ago a number of barks, brigs and some ships were owned in this city and commanded by Alexandria skippers. At the outbreak of the civil war, however, the brig Leni, owned by the late B. H. Lambert, was the only reminder of the fleet. In 1876 an attempt was made to restore Alexandria's maritime commerce and the keel of the Robert Portner was laid. Her career was short. A number of practical business men are engaged in the latest movement to place a vessel on the ocean hailing from Alexandria, and it is believed their efforts will prove successful.

The New Bridge.

Work on the new Highway bridge across the Potoma, which was recently suspended by a strike, has been resumed.

The Washington, Alexandria and Mount Vernon Railway Co. has started the work of preparing the roadbed for the new double track from Arlington Junction to the new bridge. The new tracks will be ready for service as soon as the bridge is ready for travel over it. The building of the trestle across the gap between the two sections of the double track at Four Mile Run will be completed this week and the tracks will then be connected, giving a double line from Alexandria to Arlington Junction. The railway authorities are ready to start on the double track through Alexandria as soon as the city council shall grant the desired permit for the work. It is stated that two new motor cars will arrived from the Brill shops in Philadelphia this week.

Police Court.

[Justice Julius Pelton presiding.]

The following cases were disposed of this morning:

A white man, arrested by Officers Ferguson and Arrington charged with drunken and disorderly conduct, was dismissed, the charge having been withdrawn.

Clarence Grady, colored, arrested by the same officers charged with assaulting Harrie Jackson, was dismissed and the defendant fined $2.50.

Pierce Eldridge, colored, arrested by Officers Allen and Beach charged with assaulting Ellen Gaines was fined $2.50.

A white man arrested by Officer Roberts, for trespass, was released on leaving $20 collateral for his appearance tomorrow.

Public School Finances.

The clerk of the City School Board today completed his annual report of the receipts and expenditures of the board for the year ending July 31. The report shows: Receipts from the city, $13,800; from the State, $7,427.18; balance from last year, 87 cents; total receipts, $21,228.05. Expenditures: Salaries paid teachers, $17,162.50; furniture and repairs, $710.88; blackboards, $3; salary of clerk, $300; salary of treasurer, $150; janitors, $1,310; insurance, $132; interest, $250; water rent, $60; books, printing and advertising, $53 31; crayons, $12.96; disinfectants, $4.05; medals, $6; sundries, $90.42; total expenses, $21,112.72; leaving a balance on hand of $115.33.

Fire in a Grocery.

About three o'clock this morning fire was discovered in the back part of C. T. Goods & Company's grocery store at the northeast corner of King and Payne streets. An alarm was sounded and the engines and truck were soon on the ground. The flames were extinguished before any damage to the building followed, although much of the stock suffered from the heat, smoke and water. The rear portion of the building in which the fire originated is used as a stable and during the excitement incident to the fire a stallion, which had become frightened, ran into the street and scattered the spectators. The animal was subsequently secured.

Alexandrian Offers Help.

James E. Foye, assistant manager in Charles G. Gates & Co.'s brokerage offices at the Waldorf-Astoria, in New York, has gone to Saratoga to escape the service of a summons issued by Magistrate Crane to compel his appearance in Harlem Court. Foye is the man who had his mother arrested for appealing to him in her destitution for aid. Lawyer Louis A. Cuvillier, a former Alexandrian, but now a resident of New York, has written to Mrs. Foye asking her to permit him to take up her case. He declares that he can compel her son to support her and desires no pay for his services.

Narrow Escape.

About five o'clock yesterday morning Mr. John Magner, engineer on the Southern Railway, had a narrow escape from being killed at Monroe by a man who was guarding convicts at that place. One of the prisoners, who had evidently stole something, was fleeing with the guard close upon him, and when near Mr. Magner's engine the guard discharged his gun at the fugitive, the load from which passed within a few inches of Mr. Magner, so close as to burn his clothing.

Cool Weather.

There has been a marked fall in the temperature since Sunday. Last night was phenomenally cool for the season, and this morning the mercury in the themometers stood at 68°. The severe storms which occurred Saturday in different localities have doubtless caused the present cool conditions. In some places considerable hail fell.

Edward Higgins and Lee Genzberger were today taken to the Western State Hospital at Staunton for treatment.

Committed to Jail.

Richard C. Burnett, who was recently convicted in the Corporation Court of this city of selling whisky without a license and sentenced to pay a fine of $300 and serve one year in jail, was conducted to that institution this morning by order of Judge Barley. Burnett was represented by Messrs. Machen & Moncure, and Mr. S. G. Brent, Commonwealth's Attorney, represented the State. The prisoner when sentenced, it will be remembered, on motion of his counsel was granted a stay of execution of the sentence for thirty days in order that application for a writ of error could be made to the Court of Appeals. At the expiration of that time an additional stay of proceedings was granted while the application was pending. In the meantime Judges Keith and Cardwell, two of the five judges of the Court of Appeals, announced that they had failed to find any error on the part of the lower court, but the first-named suggested that a further stay in the execution of the sentence be granted until Judge Whittle could be heard from Burnett was brought before the Corporation Court this morning, the stay having expired today, when his counsel asked for a further stay, but inasmuch as Judge Barley desired to wind up the court business, and as he had already granted two similar motions, he overruled the last application for a postponement of sentence and ordered Burnett to jail.

A game of ball was played yesterday afternoon between the Invincibles and the Virginias, resulting in a victory for the former by a score of 10 to 6. The battery for the Virginias was Gorman and Tennesson, Gorman striking out 12 men. The battery for the Invincibles was Martin, Zimmerman, Johnson and McGee (total 4 pitchers and two catchers) altogether striking out 5 men.

Chief Pettey's Report.

The report of the operations of the fire department, for the year commencing August 1, 1904, and ending July 31, 1905, as submitted by Geo. W. Pettey, chief engineer, is as follows: Number of fires, service with steamers, thirty; number of fires, service with chemicals, thirteen; number of fires, no service of the department, twenty-five; number of false alarm, six; total number of alarms, seventy-four, which is an increase of thirteen alarms over last year. The department was in actual service, during the year twenty-one hours and twenty minutes and used 28,550 feet of hose. The report shows the department to have in use 4,050 feet of serviceable and 1,000 feet of unserviceable hose. The report further shows the department to be up to the highest mark of efficiency, and commends the heroic and faithful services of the firemen.

Cameron Water.

The water from the reservoirs is again causing complaint, and the flavor has become repugnant to many consumers. About this time last year the water was giving trouble, but after one of the reservoirs had been cleaned out the disagreeable qualities of the water disappeared.

Cars Derailed.

Several freight cars were derailed and more or less damaged at Rockfish, on the Southern Railway, last night. A wrecking train from this city was sent to the scene. Trains due here between 6 and 7 this morning did not pass through this city until this evening.

Perfection Mosquito and Fly Canopies.

Why be annoyed by mosquitos and flies when it can be prevented by a very small expense and no trouble?

We call special attention to the fact that the "Perfection" 5-coil canopy springs have been THOROUGHLY TESTED in tension, action, power and endurance, and found that they will lift any grade new net to a perpendicular position against the head board, and will also undergo the strain of being fastened down, day and night, continuously for many months without showing signs of weakness, when properly adjusted. They are small in diameter; noiseless in operation; look neat and pretty; are not clumsy nor in the way; are strong and durable, and the most perfect canopy springs ever put on the American market.

Made in all sizes and can be adjusted to either metal or wood beds.

Have us put one up for you, and after one week's trial if not entirely satisfactory we will take it down and refund your money.

TUESDAY EVENING, AUG. 1, 1905.

Died by Bride's Side.

Coroner Flaherty, of Brooklyn has ordered an autopsy to determine the cause of the death, within one hour of his marriage to his pretty 17-year-old sweetheart, of Stephano Petrie, of Brooklyn.

Petrie was standing by his bride receiving the congratulations of their friends when he suddenly fell to the floor, writhing in agony. He was carried to his room and died after repeated convulsions. The case is so mysterious that the suspicions of the police have been aroused, and it is believed that some enemy, envious of his happiness, may have poisoned him.

Pretty Camille Marino and Petrie had been sweethearts since they met, a year ago. She was the daughter of Martine Marino, a baker, and took care of his home and younger children, by her mother being dead. Petrie was a prosperous young fruit merchant.

The death of Petrie was predicted, his friends say, by a fortune-teller, La Donna de Nero de Maari (the woman in black). She predicted that Camille would marry, but her husband would only sit by her side and she would never wear her pretty clothes.

Division in Zionist Congress.

The socialist sections of the Zionist congress in Basle, Switzerland, have issued a circular to the Jewish people protesting against their treatment during the meetings of the congress. They met yesterday and expressed their disagreement with the decision adopted by the congress Sunday not to accept the offer of Great Britain of a tract of land in East Africa for the formation of a Zionist colony. They decided to form a special organization, with the view of taking over territory. Meanwhile, the main body of the congress elected an organization committee, of which Dr. Henry Friedenwald, of Baltimore, and Dr. J. L. Magnes, of Brooklyn, were appointed members. During the discussions of the programme Dr. Magnes, on behalf of the American delegates, requested the reconsideration of the British proposal.

Remarkable Hail Storm.

Perhaps the most remarkable hail storm that ever visited that section passed over Iron Gate, Va., and vicinity at 2 o'clock Saturday. The downfall lasted only 23 minutes, but in that time destroyed all vegetation almost as thoroughly as if it had been swept by fire. Commencing with particles as fine as needle points, they grew in size until it looked like a fall of bon bons, then size of hen eggs and finally larger chunks, until every leaf and blade and flower was beaten into the ground. One citizen filled a barrel with the larger stones to be used in making ice cream. The stones were white and the ground was covered with them.

One Dollar Saved Represents Ten Dollars Earned.

The average man does not save to exceed ten per cent. of his earnings. He must spend nine dollars in living expenses for every dollar saved. This being the case he cannot be too careful about unnecessary expenses. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars outlay later on. It is the same in buying Chamberlain's Colic, Cholera and Diarrhoea Remedy. It costs but a few cents, and a bottle of it in the house often saves a doctor's bill of several dollars For sale by Gibson & Timberman and W. F. Creighton & Co.

A Grim Tragedy

is daily enacted, in thousands of homes, as Death claims, in each one, another victim of Consumption or Pneumonia. But when Coughs and Colds are properly treated, the tragedy is averted. F. G. Huntley, of Oaklandon, Ind., writes: "My wife had the consumption, and three doctors gave her up. Finally she took Dr. King's New Discovery for Consumption, Coughs and Cold which cured her, and to-day she is well and strong.' It kills the germs of all diseases. One dose relieves. Guranteed at 50c and $1.00 by E. S. Leadbeater & Sons, druggist. Try them today.

The pills that act as a tonic, and not as a drastic purge, are DeWitt's Little Early Risers, They cure Headache, Constipation, Billousness, etc. Early Risers are small, easy to take and easy to act—a safe pill. Mack Hamilton, hotel clerk at Valley, N. D., says: "Two bottles of these Famous Little Pills cured me of chronic constipation.' Good for either children or adults. Sold by W. F. MEETINGS.

A CALLED MEETING of the stockholders of the COLONIAL LOAN AND DEPOSIT ASSOCIATION will be held at the offices of said association, No. 128 south Fairfax street, Alexandria, Virginia, on MONDAY, August 7, 1905, at 2 o'clock, p. m., for the purpose of considering certain resolutions of the Board of Directors of said association, adopted on the 17th day of June, 1905, in Havana, Cuba, which resolutions are as follows:

First. This company being now essentially a Cuban institution, with all its financial interests in Cuba, be it resolved that steps be taken to abolish the present legal necessity of holding the stockholders' meetings in Virginia, United States of America.

Second. In order to accomplish the object of the first resolution, and also to make some changes deemed necessary and expedient, be it resolved that it is deemed advisable that the Directors of the Colonial Loan and Deposit Association be authorized and empowered to transfer, by sale, consolidation or otherwise, to another company which is or may be established under the laws of Cuba by the directors of the Colonial Loan and Deposit Association, or by others, or by both, all the assets and liabilities of the old company other than the rights of or against its stockholders derived from the subscription to or possession of stock, said Cuban company to be formed on the basis deemed most expedient for securing more capital for loans and investments, and with the general powers of a trust company.

Third. Be it further resolved that it is deemed advisable that the stockholders of this company whose stock at the time of transfer is unencumbered and up to date in its payments, exchange their stock for paid-up and non-assessable stock of the Cuban company, receiving in stock of the said company an amount equal to the total loan fund credit of their respective certificates of stock, plus 1-6 of 1 per cent. for each month transpired since the first payment on same.

Fourth. Be it further resolved that the stockholders who now have loans may continue their monthly payments as at present, in accordance with the conditions of their respective contracts, until their loans are paid off, but that they may, if they wish, exchange their stock as the other stockholders, and recognize a straight loan in favor of the purchasing company.

Fifth. Be it further resolved that a special meeting of the stockholders of this company be held in Alexandria, Virginia, on the seventh of August, 1905, at 2 p. m., to take action on the above resolutions, and also to arrange all the details of transfer and change that may be deemed necessary and expedient.
